Features

- Aluminum-alloy-Groove design, greatly increase the heat dissipation area
- Perfectly fit for high performance M.2 SSD
- Reduces heat of the M.2 SSD with 15°C - 20°C cooling effect
- Designed for the PlayStation®5 memory extension
- Compatible with Single/Double sided M.2 2280 SSDs
- Metal heat dissipation cover

Double side cooling with metal cover

The aluminum-alloy in the groove design increase heat dissipation with a cooling effect of about 15°C - 20°C (varies depending on environment and material). The heat dissipating and dust protecting metal cover further contributes to cooling. Your M.2 SSD will be kept at a safe temperature to avoid overheating and throttling, improving the performance of PS5.
