### Speed Star - Full power ahead...

The GRAUGEAR M.2 NVMe USB 4.0 enclosure transfers data at lightning speed, with up to 40 Gbit/s. To prevent heat build-up on the data highway, the active and low noise fan, together with the two copper heat pipes, ensures that the NVMe SSD cools down properly. The high-quality aluminum enclosure rounds off the cooling properties of the G-M2U4-40G-F and its design is also a real eye-catcher in any situation.
